# Meeting Minutes

| | | | |
|---|---|---|---|
| **Meeting organized by** | Andrea Cavalli<br>Julien Poffet | **Participants** | Paolo Calafiura |
| **Date** | August 15,  2008 | **Office** | 50B-3215 |

### Subjects

- We presented to Mr. Calafiura our use case diagram and our component diagram. Mr. Calafiura agrees with it.
- To simplify, Mr. Calafiura proposes that at this moment the VML application will only deal with full snapshot of the virtual machine. We will investigate the "smart" snapshot later.
- We have to take a look at the Open-OVF project of IBM.

### Tasks to do by next meeting

- Specify what command will be available for the end user.
- Familiarize us with Python by doing some tutorial.
